Can damage fruit

Tight fit can prevent softs entering bag

All velcro/poppers are secured

BAG SET UP

Proper bag setup ensures fruit quality, packhouse standards, and picker health. A poor or damaged bag affects safety and quality.

Cable ties

Adjust bag if needed, they last long, easy to fit and remove

Adjust each side

QUICK TIPS

Label bags so pickers use the same one each day
Check bags regularly for protruding parts

Don't wear too low
